Education, Donors and Coordination

The Albanian Government believes that an educational system with

- ❖ Same standards as those of developed countries and
- ❖ High efficiency in using human, financial and logistic resources

is the most effective tool in accomplishing our society's major objectives:

- The development of market economy and
- The consolidation of democratic institutions and culture

Projects Typology MoES – Donors - Partners

- ❖ Projects compiled, financed and managed by donors, in direct collaboration with local partners and beneficiaries
- ❖ Projects compiled in collaboration with MoES and its Institutions, entirely financed and managed by partners
- ❖ Projects compiled in collaboration with MoES and its Institutions and mainly managed by MoES (SWAP)

Education Excellence and Equity Project (EEE-P)

- ***The main objective of this project is the qualitative improvement of the learning conditions for all pupils and students, and the increase of attendance for the General Secondary Education, especially for poor people***

Actual projects in MoES

EEE-P: Management achievements

- *Providing a vast intervention in education sub-sectors*
- *Providing an all-embracing approach to the activities of the educational system reforms, with \approx 80 implementing units*
- *Installing a new management culture*
- *Project implementation based upon the Operational Manual*
- *Increasing professional capacities of MoES staff*

Education Excellence and Equity Project

EEE-P: Difficulties faced

- *Lack of qualified capacities for financial procurement and management*
- *Lack of clear manuals for procedures' performance*
- *A new management culture for planning and monitoring activities*
- *High-level requirements by The World Bank on preparation of terms of reference and technical specifications*
- *Sometimes delays by banks in approving procurement procedures*
